

## WILSON CONFERS WITH THREE ALLIED HEADS

### Grave Concern Over Revolutionary Developments

PARIS, March 24.—(By The Associated Press.)—President Wilson met Premier Clemenceau, Lloyd George and Orlando at the foreign office this afternoon for an hour's conference before the assembling of the supreme council. Both the conference and the supreme war council were held amid a feeling of concern over the revolutionary developments in eastern Europe and the lack of definite results thus far reached in the Paris conference in stabilizing European conditions.

President Wilson was known to regard the situation as serious and as calling for energetic action toward hastening the work of the conference to completion and there was reason to believe that this would be one of the main subjects before both meetings, rather than the formal questions on the program.

The result of the deliberations of the supreme council today are not likely to be stated in the official communiques, and probably will take form in their efforts on the conference work particularly with respect to reparations, frontiers and the league of nations.

The advocates of the league of nations maintain that it is not retarding the progress of the peace treaty, as the league meetings are held at night and are nearing a conclusion, whereas the obstacles to the treaty are on questions of principle, on which the premiers thus far have been unable to secure an agreement.

The war council again today dealt with Poland, which question is close to settlement. It is understood that the recommendations of the Cambon committee for a Polish corridor across East Prussia to the Baltic will prevail. The Polish divisions at present in France will probably proceed to the Baltic and may land at Königsberg instead of Danzig in order to avoid a clash with the Germans over Danzig.

The league of nations commission resumed its sessions tonight President Wilson presiding. It was not believed that the large number of amendments would be completed and the revision of the covenant concluded without another meeting.

The amendments have been divided in three classes: First, those by neutrals, second those by an American senator, third, those framed by President Wilson, Colonel House and Lord Robert Cecil. The last named group includes all points which the framers of the instrument believe will clarify its meaning and satisfy objections in all quarters.

The text of the speeches of Senators Lodge and Knox and the main points of the recent debate between Senator Lodge and Dr. Lowell are being gone over in shaping these changes. According to reports President Wilson's views is that the two main obstacles to an early conclusion of peace are reparations forward damages and the Franco-German Rhine frontier. The belief was expressed by those conversant with the president's views that this situation will be clearly and definitely presented to the premiers and, if need be, a suggestion will be made that they remain continuously together until these two difficulties are met and overcome. The expectation also was advanced that any doubts still remaining on the question as to whether the league of nations would or would not go into the peace treaty would be settled in some quite definite understanding among the premiers who are controlling influences of the conference.

### FULL PARDON FOR DEBS ASKED

NEW YORK, March 24.—A full pardon for Eugene V. Debs, under a ten years prison sentence for violation of the espionage law and amnesty for all persons imprisoned for "honest expressions of opinion against America's cause in the war" was urged in a petition cabled today to President Wilson by the executive committee of the Social Democratic League of America. The signers included Charles Edward Russell, John Spargo, J. G. Phelps Stokes, Charlotte Perkins Gilman, Chester M. Wright and Upton Sinclair.

### SUCCEEDS IRELAND

Des Moines, March 24.—Bishop Austin (of the Des Moines diocese, head today for St. Paul, where he will be installed as archbishop in succession to the late John Ireland. A large delegation of Des Moines clergy and laymen accompanied him to St. Paul.

### SIGNS SUFFRAGE BILL

St. Paul, March 24.—Governor Burnquist today signed the bill giving women the right to vote for presidential electors in Minnesota.

## Sending Food To Hungry Is Way To Restore Order

CHICAGO, March 24.—Immediate sending of food and clothing to Budapest for distribution through Hungary as a means of restoring order was used in a statement tonight by Congressman F. H. LaGuardia of New York, formerly in the American consular service in Hungary.

"Order must be established or Bolshevism will spread," the statement said. "If it is not curbed, it is liable to spread to the newly formed governments of Poland, Czechoslovakia and the Jugo-Slav-Serbian kingdoms. This morning's news can be no surprise to anyone familiar with conditions in Hungary and an opportunity of then breaking up the government and winning over the majority of the people to the allies. I took the matter up with the secretary of state but not succeeding in getting him interested. Later, while in the military service overseas I met Prof. Richard Zanella, who was the member of parliament from Fiume to the Hungarian parliament, who was in touch with all the anti-German and anti-Austrian factions.

"I talked with our military attaché at Rome, Col. M. B. Buckley, and he, Zanella and Colonel Marchetti, chief of the Italian intelligence department held a conference and decided upon a plan to get in touch with all the Hungarian leaders who could be trusted to place agents over the country with a view of carrying out a revolutionary program. All this was cabled in cipher to the state department and a few days later we received a reply stating in substance that the department was interested to receive all possible information concerning internal conditions in Hungary but under no circumstances would permit Congressmen La Guardia or anyone connected with the United States government to confer with an alien enemy subject. At the time this reply was received we had arranged a conference in Switzerland with the leader of the Hungarian government."

Congressman LaGuardia said the people of Hungary were an easy prey to Bolshevik propaganda because the Hungarians felt they had nothing to lose and perhaps something to gain."

### ADDITIONAL UNITS HOME FROM FRANCE

WASHINGTON, March 24.—Additional units of the 30th, 91st, and 40th divisions have sailed from France. The 40th division consists of National Guard troops from North and South Carolina and Tennessee while the troops of the 10th and 91st divisions are from Pacific Coast and western states and Alaska. The Transport Edgar A. Luckenbach, due at New York April 2 has the headquarters troops of the 40th division and units of the 15th Infantry. The Transport Siboney due at New York, April 3, has on board units of the 363rd infantry and 364th infantry.

Most of these units will be demobilized at Camp Kearney, Calif.

The Transport Horedia will arrive at New York April 2 with a few casualties among whom are 52 nurses.

The Transport Huron, due at Charleston, S. C., April 4, has on board units of the 119th Infantry, 11th machine gun battalion and medical ambulance and field hospital units, all of the thirtieth division enroute to Camp Jackson, S. C.

The Transport Kentuckian due at New York, April 3 has units of the 363rd infantry of the 91st division, bound for Camp Kearney. There also are casual companies on board.

### BAKER WILL SPEED UP DEMOBILIZATION

PORT WORTH, Texas, March 24.—While Secretary of War Baker was attending a luncheon here today, General March, chief of staff visited the scene of the death of his young son, Lieutenant Peyton C. March Jr., who was killed last year in an airplane crash. General March found the spot where the boy fell with flowers in the form of an airplane wings. Young March fell 2,000 feet to his death.

Both Baker and March said the demobilization system would be revised so as to make it possible to muster men out in forty eight hours after their arrival.

### OFFER UP TO MEN

LONDON, March 24.—At the conclusion of an adjourned conference between the railway men and the government at the board of trade today J. H. Thomas, general secretary of the national union of railway men declared the members of the union had a full interpretation of the government's offer to the railway men and it was now for the men to decide whether to ratify the offer.

### MAY INCLUDE COFFEE IN FOOD TO GERMANY

Rio Janeiro, March 24.—Brazilian coffee growers have requested the government to make an effort to have Brazilian coffee included in allied foodstuffs sent to the relief in Germany.

## BOLSHEVISM SPREADS THROUGHT CENTRAL POWERS

### State of War Exists Between Hungary and Entente

(By Associated Press.) The question of the barrier which the peace conference intends to erect against the spread of bolshevism into the former central powers has come sharply to the front as a result of the situation in Hungary which Bolshevik elements have seized the power and declared that a state of war exists between Hungary and the entente powers.

Premiers of the allied states were called to meet in special session in Paris at 3 o'clock this afternoon and it was reported that important military decisions might be taken at the meeting of the supreme council at 4 o'clock regarding the situation in Hungary and Poland. Premier Clemenceau and Foreign Minister Richan had a long conference Sunday regarding Hungary and it is indicated by Paris newspapers that action looking to military.

### Situation Serious.

Paris newspaper writers see the situation as serious and as one calling for military action. They express the belief that Germany may be behind the movement for the purpose of defeating the work of the peace conference. Some commentators in London see the Hungarian situation as partly the result of the delay of the peace conference in bringing about a preliminary peace.

A report through Switzerland to Paris says that Karl Kautsky, an independent socialist, has been sent to Moscow by Count von Brockdorff-Rantzau, the German foreign minister, to inquire into the soviet government.

Rioting is reported to have occurred in Budapest but there is no reliable information regarding entente troops which have been in Hungary for several months. Two French divisions are at Budapest and Serbian and Rumanian troops are available for use in Hungary should their services be needed. The extremists element in Hungary said to have absolute control and has been in wireless communication with Premier Lenin at Moscow. In addition it has called on the workers of adjoining countries to rise against their governments.

### Ship Poles to Danzig.

It is understood in Paris, according to one report, that the three Polish divisions in France will be shipped at once to Danzig. The allied proposal to use Danzig as the port of debarkation for these troops was one of the main causes for the breaking off by the Germans of negotiations with the allied commission in Poland. German newspapers have strongly denounced the proposal to give Poland the port of Danzig and a corridor to it.

The extremists are active in Vienna but the government still is in control. Reports from Czechoslovakia, where the Bolshevik movement is reported to be strong are meagre.

Reports that the Russian Bolsheviks had large forces of troops in Galicia ready to advance into Hungary still lack confirmation from reliable sources. The Bolsheviks, however, are within 100 miles of the eastern frontier of Galicia but reports late last week were to the effect that the anti-Bolshevik Ukrainians were driving the Bolsheviks back in the region of the Pripiet marshes northeast of Lemberg, which the Poles were forced to give up to the Ukrainians.

### ISSUES RULING ON COAL HAULING

WASHINGTON, March 24.—Acting Secretary Roosevelt wrote Fuel Administrator Garfield today that naval tugs would discontinue immediately hauling coal for public utilities in New York city and that if any sudden emergency arose in the future managers of such utilities should make known their wants to the fuel administration and not to the navy department. The navy began moving coal to the utilities some time ago when a shortage of fuel resulted from the strike of crews of privately operated boats in New York harbor threatened to cause a suspension of light, power and transportation facilities in the city.

### WILL GET BRIEF GLIMPSE OF HOME

WASHINGTON, March 24.—Two army officers enroute home on a transport as stowaways will enjoy but a brief glimpse of home. They will be shipped back immediately to face charges on their arrival in France. A cablegram reported their presence on the ship.

Similar treatment was accorded five officers who stowed away immediately after the armistice was signed last November. Their ship docked at New York on one side of a pier at the opposite side of which lay an outward bound vessel. They were marched down one gang plank and up the other. The return of stowaways for trial is expected to discourage the practice.

## Preparing For Flight Across The Atlantic

WASHINGTON, March 24.—Naval seaplanes which are to attempt a flight across the Atlantic Ocean in May will start from Rockaway Beach, Long Island but the actual "jumping off" place will be much farther up the coast, possibly at some point in New Foundland. Whether the machines will steer a direct course for Ireland or follow the longer route via the Azores, apparently has not been determined. Acting Secretary Roosevelt announced today that the destroyer Barney had been ordered to proceed to New Foundland to investigate the harbor facilities along the coast for the purpose of determining the best base from which the planes could start and harbors in which landings could be made if it became necessary for them to descend during the voyage from Rockaway to the flight base. Unless difficulties with ice forces are encountered, the Barney is expected to return to the United States within about ten days when reports should be submitted. Mr. Roosevelt said it was regarded as preferable to fly the machines to the base to be selected for the flight rather than to transport them by ship. The aircraft will be refueled and given a final tuning up before they actually depart overseas. Several machines are being prepared for the flight and two or more very probably will make the start. Three planes of the N. C. 1 type have been completed and a fourth is nearing completion at the Curtiss plant at Garden City, N. Y. Extensive tests of the N. C. 1 have been made and 51 passengers were carried on one of her flights.

Whether it will be possible for the machines to carry sufficient fuel to drive them across the ocean has not been made known. They could refuel at the Azores without difficulty and it is believed they could replenish their gas supply in mid-Atlantic from a ship with which a rendezvous could be arranged.

Detailed plans to the flight are being carefully safeguarded and there has been no information as to whether the machines will keep together or follow different routes. As destroyers will guard the crews, most officers believe the flying craft will follow one route. The navy department has not entered for the \$50,000 prize of the London Daily Mail of the first air craft that completes the trans-Atlantic flight.

Several British firms and one or two individuals are reported to have entered for this prize but the general belief here is that none of these will be able to make the start in advance of the naval planes.

### WAR ENDED WHEN ARMISTICE WAS SIGNED

LOUISVILLE, Ky., March 24.—Federal Judge Walter Evans, deciding a case which hinged upon an interpretation of when the European war ended, today decided that the war was brought to a close when the armistice was signed and that President Wilson, "in an official speech" had made that declaration upon which the court predicted the decision.

Judge Evans refused to take cognizance of a telegram from Acting General Palmer to the effect that congress only could terminate it as far as the United States is concerned by ratifying a treaty of peace and brushed aside a quotation from Secretary of War Baker that the armistice meant only a cessation of hostilities.

### GLASS REPLIES TO MCFADDEN'S INQUIRY

WASHINGTON, March 24.—Secretary Glass made public today a letter to Representative McFadden of Pennsylvania, replying to Mr. McFadden's inquiry of the authority by which Secretary Glass has continued John Skelton Williams in office as controller of the currency and ex-officio member of the federal reserve board. Mr. Glass said his action was based on an act of congress dated March 2, 1895, which was construed in 1906 by Attorney General Moody to provide for continuance in office of treasury officials after expiration of their term of office and before the appointment and qualification of their successors. The senate failed to confirm the reappointment of Mr. Williams.

### MARINE CORPS CASUALTIES 11,309

WASHINGTON, March 24.—A revised report of casualties in the Marine Corps up to and including March 19, issued today shows the total to have been 11,309 officers and men. The major casualties, including killed in action, died of wounds, died of disease and other causes, totaled 98 officers and 2,420 men. Listed as missing are 215 men.

### BAD DAY FOR CHAMPIONS

Toledo, O., March 24.—Today was another bad day for champions and former champions in the ten pin world. One of the first to fall in a second effort to comeback today in the A. B. C. tournament here was G. Satorius, who with W. Hozscho, won the two men title in 1917 with 1,345. Satorius was paired with C. Schwann of Peoria and the two collected 1,170 pins.

## Execution of The Romanoffs Told By French Officer

SAN FRANCISCO, March 24.—Confirmation of the execution of the former emperor of Russia and his wife and daughters under particularly revolting conditions by Bolshevik troops, was made here today by General Robert C. Paris, a French officer in the Czechoslovak army in Russia who arrived here yesterday from Vladivostok on his way to France. Nicholas and his family were shot in the basement of their house at Ekaterinburg, Siberia. The women of the once royal family were subjected to indignities and mistreatment in the presence of the former czar before the executions took place, General Paris said. The house is now the headquarters of a Czechoslovak command. General Paris' account follows:

"Early one morning the czar was taken from an upstairs room and stood against the wall in the basement of the house. There he was shot, but not before his wife and daughters had been mistreated in his presence. After that the czar's wife was shot, and then her daughters and other members of the household.

"A few days following the murder the bodies were taken under cover of night by automobile into nearby villages, where they were cut into small pieces and burned separately. The charred remains were found by officers of the forces opposed to the Bolsheviks.

"Remains of the burned clothing also were found. Proof that the garments were those of the Romanoffs was given by the fact that the diamonds which the czar's wife and her daughters wore in their waists were picked up."

"The room in which the murder was committed is now sealed. The plaster on the walls shows where the rifle bullets penetrated. The bullets were removed with bayonet points. Bloodstains have been washed from the floor. Under the flooring, however, little pools of blood were found. Everyone in Russia is not thoroughly convinced the entire Romanoff household was wiped out by the Bolsheviks."

## NEW YORK WELCOMES 27TH DIVISION TODAY

NEW YORK, March 24.—New York was thronged tonight with soldiers of the 27th division and relatives and friends of the men who had flocked in from this and other states for the great welcome parade tomorrow of the former New York National Guardsmen, who broke the Hindenburg Line.

Police preparations were made on the expectation that at least 1,000,000 persons will pack themselves tomorrow into all available spaces along the five mile line of March from Washington Square to 110th Street on Fifth Avenue. A force of 10,000 police reserves will be on duty.

All of the 27,000 men of the division were in the city tonight, having arrived from the outlying camps in which they are quartered.

Major General John F. O'Ryan, commanding and the officers of the division were guests tonight at a home coming dinner. The men will be dined tomorrow night.

The following cablegram from King Albert of Belgium was transmitted to General O'Ryan: "Having been informed of the triumphant return of the 27th division of the American army I address to you and to your valiant and victorious men who fought so bravely in Flanders the grateful greetings of the whole Belgian nation."

A tribute from King George of England came in the form of a letter from General H. S. Rawlinson.

### GOVERNMENT WILL SELL WHISKEY

WASHINGTON, March 24.—Custom authorities have long pondered over the disposal of many gallons of whiskey, rum and other distilled spirits seized as it was about to be imported in violation of the food act. Today they got an opinion from the department of justice that it might be confiscated and sold for industrial or drinking purposes, even in dry states on the assumption that the federal government was not subject to state laws. This applies also to liquor seized by revenue agents from moonshiners or to liquor confiscated in shipment from one state to another without adequate labeling. Both agencies announced that they would not exercise the right to sell within dry states, but would confine their auctions to wet states.

### THREE MEN SMOTHERED

Saskatoon, March 24.—Three men were smothered under several tons of grain here today when a Canadian National Railway train crashed into an elevator which burst and engulfed the engine, baggage and express cars with its contents.

### I. W. W.'S CONTINUE TO FAST

Topeka, Kans., March 24.—Altho growing pale and thin as the result of their five days fast, alleged I. W. W. members held in the county jail here continue to refuse food offered them.

## SITUATION IN HUNGARY CAUSES GREAT ANXIETY

### Washington Officials Watch Dispatches With Interest

WASHINGTON, March 24.—Advices to the state department today from three widely separated European sources tended to increase the anxiety of officials over the situation in Hungary. Bolshevik elements apparently had assumed complete control of the government of Budapest with a threat of renewal of hostilities. There was no indication as to the extent of the control of the new regime beyond the capital.

It appeared from today's advices that the crisis resulted from the line of demarkation established by the peace conference in circumscribing the territory of Hungary and the general economic situation in Budapest. The recognition of the extreme claims of the Rumanians only Czechoslovaks and the establishment of neutral zones between these lines and the limits allowed to Hungary which zone was to be held by the French until the final peace treaty was completed, was said to have been more than the old Hungarian government was able to accept and remain in power. It was suggested that the fact that these lines were not to be the final limits of the new Hungarian state was not appreciated by the Hungarians.

### Safety of Foreigners

The safety of foreigners was a feature of the news that appeared cheering to state department officials. A number of Americans are in what was formerly Austria-Hungary on various missions for the peace conference and the inter-allied food commissioner.

Senator Hitchcock, chairman of the senate foreign relations committee, said that the situation in Hungary probably would do much to wipe out differences between the nations represented at the peace conference and would aid in bringing about final adoption of the league of nations plan. State department officials were surprised by the rapidity with which Bolsheviks swept into control in Budapest and were inclined to doubt that it had succeeded in reaching out to the cities to include the peasant agricultural class which is said to have been well satisfied with its treatment under the land owning class.

Today's advices came from Belgrade, Berne and Copenhagen and related to different features of the movement each, however, referred to the revolution as an accomplished fact. The Serbian advices declared that the new Magyar had announced that hostilities would begin last Friday night, but they did not state against whom or whether they had actually begun.

The appointment of Bela Kun, as minister of foreign affairs was particularly disturbing to officials as he was for some time an aide de camp of Leon Trotsky in Russia. The new minister of war was described as having been an orderly in the second army.

### Advices Summarized

The state department advices were summarized in this statement: "The state department has received a despatch from Belgrade that the Hungarian government was overturned by the communist revolutionary element under Bolshevik leadership in Budapest on Friday. While telegraph and other communications were cut off and there was some shooting and other disorders, all the foreigners in Budapest are believed to be safe."

"Thru Serbian sources, information has come to department that the Hungarian government has resigned and that the new Magyar government announced that hostilities would begin last Friday at 6 p. m., Budapest time. The resignation of the old Hungarian government came after French authorities now in Hungary had directed the Hungarian government to withdraw its army forces to Szeged-Budapest boundary, the Rumanians to hold the Arad-Zsat-Marmen line and the French to occupy the territory in dispute.

"A despatch from Berne referring to the press reports says that Alexander Gorbai, who has been assumed the presidency of the revolutionary government of Workers, Peasants and Soldiers' Councils is a workman who at first a conservative Socialist has now moved to the left. Joseph Pogony, minister of war formerly was president of the solatnerat and was an orderly in the second army and once punished for indiscretion in an army matter. Bohm, who has been commissioned for social affairs, Trotsky in Russia, serving as such for four years and described as a very radical Bolshevik. The state department has received a despatch from Copenhagen stating that Count Karolyi heading the provisional government at Budapest in a memorandum at Copenhagen, claimed that Rumanians started rumors that the Rumanians and Czechs hoped that they might be allowed to occupy Hungary on the pretext of restoring order and defending their nationals."

## Mackay Will Fight Burleson To Last Dollar

NEW YORK, March 24.—Postmaster General Burleson's action in dismissing Clarence H. Mackay as president of the Postal Telegraph-Cable Company was characterized by Mr. Mackay as "despotic and brutal" in a statement issued here tonight on his return from Baltimore.

Mr. Mackay added that "William Hohenzollern himself could not have been more arbitrary, despotic and vindictive" and served notice on Mr. Burleson that he would "fight to my last dollar and to the last ditch."

He ridiculed Mr. Burleson's statement that the dismissal "was the result of his failure to obey instructions of the postoffice department," asserting that the Postal's only two failures to comply with instructions were in cases where "ambiguity" of the instructions caused delay and where the company "would have faced prosecutions with possible heavy fines" had it obeyed.

"This act of Mr. Burleson," he said, "is only the continuation of a deliberate conspiracy to wreck and ruin the Postal Telegraph System and then establish a monopoly of wire communication in the United States."

Mr. Burleson's principal acts, since taking of the lines he asserted, had been increasing of long distance telephone rates in the interest of the Bell Telephone company; the proposition to increase telegram rates in the interest of the Western Union Telegraph company; the seizure of the cables, after the signing of the armistice, the ousting of myself and other officials of the commercial cable and Postal companies and the order that the Postal build no lines to compete with the Bell Telephone or Western Union without first submitting our plans to officials of those companies.

## OPERATE AIRPLANE WITHOUT HUMAN GUIDE

FORT WORTH, Texas, March 24.—Under automatic control an airplane capable of carrying a heavy load and operated without a human guide has made a trip of 100 miles and landed within a short distance of the point it set out to reach. Newton D. Baker, secretary of war disclosed in an address here today.

The device which made a flight possible and which has been kept secret, Mr. Baker said, is an automatic guide for airplanes and was invented in America. It was designed as an instrument of war and the secretary referred to it in describing to his audience the possible horrors of future wars if there is to be no league of nations.

When the armistice was signed the invention had been so nearly perfected that in actual test an aircraft without an occupant was successfully sent on a trip of over 100 miles he said. An airplane went out under control of a pilot without making a landing, returned to its point of origin after locating the distant objective for the tests.

Then was sent out under automatic control another airplane to land at the designated point and it effected the landing so close to that point that had it been a shell it would have been considered a good shot.

Secretary Baker did not explain the exact nature of the invention but declared that the war department considers it one of the most wonderful pieces of mechanism for wars yet developed.

### MEMORIAL FOR COL. ROOSEVELT

NEW YORK, March 24.—Besides a monumental memorial in Washington to the late Colonel Theodore Roosevelt and a memorial park in Oyster Bay, provided for in a resolution adopted at a meeting tonight by Roosevelt permanent memorial national committee, it was decided to form a "Roosevelt Memorial Association" to promote the "development and applications of the policies and ideals of Theodore Roosevelt for the benefit of the American people."

The Oyster Bay memorial park, according to the resolution would possibly ultimately include Sagamore Hill, Roosevelt's home to be preserved like Washington's home at Mt. Vernon and Lincoln's at Springfield.

An executive committee will be appointed later to tend to the formation of the Roosevelt Memorial Association.

### CLOTHING SHORTAGE IN CENTRAL EUROPE

WASHINGTON, March 24.—Lack of clothing in the liberated countries of Central Europe is regarded by Herbert Hoover, European relief commissioner as full-blown serious as the shortage of food. In a cablegram today urging the American people to contribute liberally to the collection of clothing being made this week by the American Red Cross, Mr. Hoover said that in some of the devastated countries a considerable portion of the population was unable to leave their homes because of insufficient clothing, while new-born babies in Serbia were wrapped in paper because cloth was not available.

## CHEAPER FOOD IN NEAR FUTURE IS PREDICTED

### By Chairman Peek of Commerce Industrial Board

WASHINGTON, March 24.—Cheaper food in the near future was predicted today by Chairman Peek of the department of commerce industrial board, as a result of a conference with food administration officials in New York. Mr. Peek said there had been general misunderstanding of a recent statement by Mr. Hoover that wheat might go to \$3.50 a bushel, and added that the billion dollar grain appropriation was made by congress to enable the public to get wheat products at reasonable prices as well as to make good the guarantee to the producer.

With wheat prices reasonable, Mr. Peek said, reasonable prices of other products could be expected because wheat was the barometer of the food trade.

Mr. Peek and William M. Ritter, member of the board, returned from New York this morning where they went to secure from officials of the food administration and its grain corporation a statement of their policy on food prices.

### Peek's Statement.

Mr. Peek made this statement: "Food administration officials felt that it was unfortunate that there had been such a general misunderstanding of Mr. Hoover's statement that 'we might see wheat at \$3.50 a bushel.' 'What Mr. Hoover said was 'we might see wheat at \$3.50 a bushel, as it was in the spring of 1917, if there is a free market in wheat, and controlled prices. So much for the 1918 crop. There can be no free market of ninety per cent of the world's exports. As to the 1919 crop it is, of course, too early to come to any precise conclusion.'"

"It is clear that, as Mr. Hoover says, there can be no free market at present. In the first place, because of the unsettled conditions in business—especially in shipping and finance."

Further, the phrasing of the grain appropriation bill clearly indicates that the \$1,000,000,000 appropriation made by congress, not only to make good the \$2.26 guarantee to the farmers, but to enable the government to sell wheat at four at the guarantee prices or at such other prices and on such terms or conditions as may be necessary to carry out the purposes of the act' and to enable the people of the United States to purchase wheat products at reasonable cost. Wheat is the basic food commodity. What is a reasonable cost must be determined by conditions. In July, the new crop, estimated to be more than a billion and a quarter bushels, will begin to come to market."

"I believe, therefore, that there is every reason to expect lower food prices in the relatively near future. This view, I believe, the men in charge of the affairs of the food administration will share."

### COMMODITY RATE REDUCTIONS ORDERED

WASHINGTON, March 24.—Commodity rate reductions were ordered today by the railroad administration on a number of articles of machinery and other parts for export thru Pacific ports to Japan, China, Australia and the Philippines from Missouri river territory and eastward. The reductions are specific and are said to range between 15 and 75 per cent.

The new rates which will be put into effect as soon as the tariffs can be prepared and filed are as follows: for the more important commodities per hundred pounds: Agricultural implements \$1; iron articles 60; machinery \$1; railway equipment .75; passenger automobiles \$3.75; freight automobiles \$3; canned goods \$1; pig iron .55; paper .90; plumbers goods \$1.50; zinc plates and sheet .80; and vehicles \$1.40.

### ASSIGNED TO CAMP GRANT

Camp Grant, Ill., March 24.—Maj. Peter A. Tulp of Camp Hancock, has been assigned to Camp Grant as adjutant in the personnel department, succeeding Capt. Earl B. Stone, of Cleveland, Ohio, who will be honorably discharged next Monday.

Maj. L. M. Wheeler, of Camp McClellan, Ga., has been assigned to Camp Grant as camp adjutant.

## AN ENGLISH VIEW.

The Manchester (Eng.) Guardian says some people may consider the resolution on the Irish question passed by the American house of Representatives as "irrelevant, even as an impertinence." But, continues the newspaper, "it is nothing of the kind. It has a very direct bearing on the fundamental principles accepted as the basis of peace and it should be regarded not as gratuitous intervention in our domestic affairs but as a friendly and by no means unnecessary warning."

## THOSE EARTH STREETS.

There is not much use of talking about it now with the city's depleted treasury, but it certainly would be a fine thing if all the earth roads of Jacksonville could be dragged. There are some very rough rutty streets in Jacksonville now, which dragging would make very much more passable. Another thing is that Jacksonville people frequently condemn residents of the country precincts for failure to drag earth roads and seem to forget that right within the city limits there are streets that are in just as bad and possibly worse condition than the very country roads that they complain of.

## WOULD UNIFY MUNICIPAL RECORDS.

All the facts are not at hand about the bill introduced in the state senate by Senator Hull for the creation of a commission on county and municipal expenditures. However, the brief outline given in the press indicates that this is a measure which may be of benefit to municipalities. Not speaking in a local but in a general way, one of the great troubles with accounting methods in counties and cities, is a lack of uniformity resulting quite largely from the frequent changes of officials and the comparatively brief period of responsibility. The purpose of the proposed law is to bring about a uniform system of records and accounts. It is believed that in this way some of the careless methods which make for extravagance in public expenditure may be done away with and that the resulting economy may save money for public treasures.

It is claimed that the plan proposed by Senator Hull would also result in a greater efficiency in the administrative methods of municipalities and counties. It has long been an acknowledged fact that municipal governments have not measured up well in efficiency with state or national methods and if Senator Hull's bill will help remedy this defect it will be of great service to the state.

Isn't it queer that the very people who have been howling their heads off for twenty years because we have not cut the Philippine Islands adrift are now all hot up with enthusiasm over the scheme to give the United States sovereignty over the Near East.—(National Republican.)

## "BEATING SWORDS INTO PLOWSHARES."

Uncle Sam now will use the raw stuff that was to blow Germany off the map for fertilizing shells out of it he is putting it on the land to raise food and cotton. Over 150,000 tons of nitrate of soda, released by the war department, is speeding from 18 United States shipping points to farmers via the Bureau of Markets, Department of Agriculture. In view of the number of orders for early shipment being received the nitrate distributors say that spring must be on the way. Farmers who did not want to accept deliveries in February now want immediate shipments, and the Bureau of Markets is trying to ship 100,000 tons this month.

Orders have already been issued from Washington for the shipment of over 75,000 tons in small lots, and Savannah and Wilmington report daily shipments of over 1,000 tons each. Announcement that all applications for nitrate will be filled for the full amount was made today, but it was pointed out that applicants should appreciate the impossibility of filling all orders simultaneously, though every effort is being made to have the nitrate reach all applicants in time for use this season.

## POCH AND PERSHING HAVE PREPARED.

The news from Europe that Hungarians have joined the Bolsheviks and declared war against

the allies is disconcerting. It can be remembered, that those familiar with European conditions expected some outbreaks of this kind. Those who feel alarm can find assurance in remembering that Marshal Foch, Gen. Pershing and their associates long since made such preparations that the new trouble cannot be of long duration or very serious extent.

## FURTHER PATIENCE IS REQUIRED.

Soldiers should heed the government warning that any claims they have for back pay will receive no more prompt attention if filed with claim agents. The government has its own machinery for looking after these claims and while that machinery may move slowly, the claim agents can do nothing to oil the machinery. Soldiers for the most part have been patient about back pay and now it behooves them to continue that patience to the paying point.

## MORE PROOF OF TUBERCULOSIS EXTENT.

Those who have been enthusiastic in their war against tuberculosis have new proof of the wickedness of their cause. Out of 7,710 cases of discharged disabled men from the army, navy and marine corps, more than 36 per cent have been found tubercular, or to have lung troubles. Based on these figures, the federal board expresses the belief that of the men eligible for vocational retraining under the government rules nearly 40,000 will be found tubercular. Those who have continued to talk about the dangers of the great white plague have been dealing with a real menace to the health of the people.

## THE COMMUNITY COUNCIL PLAN.

The community council plan which purposes to carry forward the work together spirit born of war time endeavors, is well worth while. In every community throughout the U. S. there was developed during the war time period a spirit of co-operation which was the natural outgrowth of the association of men and women with a common purpose. Race, color, social standing, politics, none of these things had anything to do with the associated workers. For these minor things—these imaginary lines of classification—were all blotted out in the fine enthusiasm and patriotism of the hour.

The result of this community born enthusiasm was the great victory overseas, for the efforts of the soldiery at the front would have availed nothing if they had not been backed up by the united patriotism of men and women at home. Now the distinct endeavor is being made to preserve something of that community organization for the betterment of the community itself, and the plan is feasible.

People have found that they can work together, that many of their interests are in common, and that they best serve themselves by serving each other. There is every reason to believe that people will continue to have the renewed interest in each others affairs that the war brought, and that this will apply to neighborhoods, towns and cities.

Rippling Rhymes  
By Walt Mason

**Sure Cures.**  
There is a cure for every ill that gives your frame a wrench; a porous plaster or a pill, a capsule or a drench. No matter what disease you have, some delegate is high to tell you of a healing salve that makes your anguish fly. Some learned physician has the hope—it costs one buck a throw—that will revive the springs of hope and abrogate your woe. Some ancient dame in humble garb can brew a magic tea, the essence of some mystic herb, to cure your house maid's knee. This being true, as true it is, why are we in the soup, with gout and mumps and rheumatism, with rabies, itch and crop? Why do we weep and suffer on, and beastly lie endure, when we can buy a demijohn that's guaranteed to cure? Why do we die before our time and fill the honeydew lot when there are remedies sublime, that always hit the spot? I but-

tonholed the village doc and asked him things like these: for I was full, from neck to hock, of every punk disease. "That's easy," said the doc, "you hick; men's judgment is so poor, they always wait till they are sick before they take the cure."

## BIRTH RECORD

Born, to Mr. and Mrs. John Vasconcellos, of 618 Jordan street at Our Savior's hospital, Sunday, a son.

**EARL JOHNSTON AT CENTRAL CHRISTIAN CHURCH**  
Sunday evening after regular services, Earl Johnston was asked to speak of his foreign experiences at the Christian church. The young man told in a vivid manner of the conditions in Russia and some other eastern lands visited by him and gave a very interesting account of what he had witnessed. He was heard with close attention and great satisfaction on the part of the large audience.

In this connection it is also in order to remark that Mr. Johnston especially spoke to a Journal reporter regarding the great satisfaction of the condition of the streets of our city. He mentioned the additional amount of paving that had been done during his absence and was greatly pleased by it. Jacksonville has the warmest place in the young man's heart and anything that pertains to her progress and welfare pleases him.

## COMMUNITY COUNCIL IS PLANNED

A number of representative men and women of Jacksonville recently attended the community council conference in Chicago. They came home enthusiastic in regard to a project for better federal aid. All of the forces that will be during the war, into a community council to handle community projects in time of peace.

In order that everyone may get the viewpoint, a committee was appointed to arrange for a 6:30 dinner Thursday evening at Grace M. E. church. The presidents of all the clubs, lodges and other organizations will be invited to this dinner. A speaker from Chicago will be present and a great need will be present in the federating all the forces that make for community betterment.

**THE CITY SPRINKLER OUT.**  
Merchants especially on the north side of the square were much pleased yesterday to see the city street sprinkler pass around leaving a copious stream of water laying the offensive dust and making life much more tolerable. Many years ago a line for copy books used to read, "A bushel of March dust is worth a king's ransom" but a deal more than a bushel could have been collected about the square yesterday before the sprinkler went around.

## WITH THE SICK

The local board office here has been practically closed but in the state department there is considerable work that remains to be done. Miss Mount and associates will be engaged in compiling certain records with reference to delinquents, about whom such facts have been ascertained that they are not charged with desertion.

## ARRIVE FROM OVERSEAS

According to a telegram received yesterday John Carl arrived in New York, from overseas and will probably return to Jacksonville soon.

Joseph J. Kelly received a telegram yesterday from his son, Allan Kelly, announcing his arrival in New York from overseas.

## NEW ERA WORK AT WESTMINSTER

Terms were busy Sunday compiling Benevolence Subscriptions For the Year.

In pursuance of the plan outlined by the New Era committee of the Presbyterian church, workers for Westminster church went out in teams Sunday afternoon to complete the subscription of church workers for Westminster church went out in teams Sunday afternoon to complete the subscription of church benevolences for the year. Dr. E. B. Landis, pastor of the church, worked out a plan entirely in accord with the wishes of the Presbyterian managers of the New Era movement.

Dr. F. C. Noyes was the chairman of the general committee and during the days preparatory to Sunday the names of members of the church had been listed and apportioned to the teams, each made up of two workers. Women of the church served a dinner at the church to these men and women workers. It was an excellent dinner, prepared under the direction of Mrs. W. T. Brown and others, and after it had been served there came an informal conference with reference to the work to be done.

Dr. Landis and Dr. Noyes both gave some explanation about the cards to be taken to all the members and also gave some instructions with reference to the plan of campaign. The purpose was to secure subscriptions for the period of one year beginning April 1, for church benevolences, the amount to be apportioned by the general committee unless the giver specifies to what particular department of the church work he or she wished to subscribe. The workers started out at 9 o'clock and before 6 o'clock the task had been practically accomplished. Dr. Noyes at the church again at 7 o'clock to make report. There were, of course, a few prospective subscribers who were not at home Sunday and these were seen Monday or will be before Wednesday night, when the final report is to be made.

The great fund to be raised by the whole Presbyterian church amounts to practically 15c per member for these benevolences and in the case of Westminster this means a raising of about \$2,000.

**This is registration day. If you want to vote in the city election April 15 be sure that your name is on the poll books. The judges of election will be at the polling places today.**

## THOUGHT 3 LITTLE CHILDREN NEEDED MOTHER'S CARE

"My stomach suffering was so severe that I could not have lasted much longer. I did not care so much for myself but did not want to leave my three little children who needed a mother's love and care. A cousin in California wrote me about May's Wonderful Remedy and I took a course of it. I have since been entirely well." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale by druggists everywhere. — Adv.

## GOOSE FAT HELPS COLDS

To many generations of Grandmas, the one remedy that almost never failed to relieve a cold, was goose grease, frequently mixed with turpentine. This good old-fashioned remedy can still be obtained in MEN-THO-EZE. And it is better than ever, because wintergreen, peppermint, menthol, the great Chinese cold remedy, and other healing oils have been added.

When rubbed on the chest, MEN-THO-EZE works from the outside just like the old goose grease and turpentine did. But the fumes from the other ingredients, when inhaled, draw the soreness out of the raw, inflamed linings of the throat and lungs, giving relief in 20 minutes.

Keep a jar of MEN-THO-EZE handy and be ready for the next cold. In opal jars, 30c and 60c.

## CHILD FALLS FROM CAR.

An accident which might have had serious consequences befell Jack, the two year old son of Dr. and Mrs. H. Griggs, Sunday evening. The child was in the rear seat of his father's car, sitting on the side of the door, when the door was unfastened and he fell to the pavement, striking his forehead. Dr. Griggs brought his car to a halt as soon as possible, but in the meantime a man passing by had picked the child up and carried him to the sidewalk. The services of Dr. King were at once secured and it was found upon examination that the little boy had not suffered any serious injuries. Outside of being a trifle shaken up he is in his normal state of health. Dr. Griggs said last night that he considered it very fortunate that the child sustained no serious injury.

His work now is for the most part in connection with demobilization. Mr. Wilson has been very much interested in his work but is looking forward to release in the course of the next few months.

## BOYS ARRESTED FOR HOPPING TRAINS

Sheriff Weatherford was summoned to Concord Sunday night to make a charge of six Jacksonville boys who had been arrested there on the complaint of the Wilmington railroad. The boys were brought here, placed in jail and will have a justice court hearing. They are charged with "hopping trains." It seems to have been a practice of a number of boys to climb on coal trains running through Jacksonville, ride to Concord and later return on an "empty." The Burlington intends to break up this practice.

## IN MEMORY OF JOHN BLUE.

He is sleeping that blessed peaceful sleep. He has gone from those who loved him, but he has gone to the One who loved him best. He has left the trials and sorrows of this earth, for "I will arise and go to my Father." He has gone where there is no pain, no death, where there is rest, sweet rest.

The home circle is broken, but his presence will ever remain. Sleep, beloved, sleep. We loved you but God loved you best.

When the cares of life are ended, when our trials and cares are ended, we shall meet you face to face, in the Great Beyond, to never part again. For thine eyes shall behold us and that is very far away.

By Mabel DeFarris.

## CENTENARY MEN.

The contest in the Men's class at Centenary Sunday school continues with unabated interest. Sunday there were not quite 100 men present but the 50 mark of the previous Sunday was greatly surpassed. In the records of Sunday the Blues team, captained by Ira Patterson, won by a good margin of points. The contest is to continue until after Easter Sunday and it was decided Sunday that the losing team must provide a supper, and a good one at that for the winners.

LONDON RAIL STRIKE WILL BE AVERTED

LONDON, March 24.—(By the Associated Press.)—The prospect of averting a railway strike was greatly improved tonight. There are still some points to be negotiated but as a result of the week-end conferences the leaders of the men express satisfaction over the spirit shown by the government in seeking a tangible solution of the controversy. There had been some trouble in exactly interpreting the concessions offered by the government to avoid future misunderstandings, but this has now been worked out to the satisfaction of the negotiating committee for the men and it is expected the men will ratify the agreement.

The government has agreed that the whole situation shall be reviewed at the end of the year.

**Don't Experiment with Catarrh; It Often Leads to Dread Consumption**

**You Will Never Be Cured by Local Treatment with Sprays and Douches**

Catarrh is a condition of the blood and can not be cured by local applications of sprays and douches; this has been proven by the thousands who have vainly resorted to this method of treatment.

Catarrh should not be neglected or experimented with. The wrong treatment is valuable time lost, during which the disease is getting a firmer hold upon its victim, and making it more difficult for even the proper treatment to accomplish results.

Though catarrh makes its first appearance in the nostrils, throat and air passages, the disease becomes more and more aggravated and finally reaches down into the lungs, and everyone recognizes the alarming condition that results when the lungs are affected. Thus catarrh may be the forerunner of that most dreaded and hopeless of all diseases, consumption.

No local treatment affords permanent relief. Experience has taught that S. S. S. is the one remedy which attacks the disease at its source, the blood, and produces satisfactory results in even the worst cases. Catarrh sufferers are urged to give S. S. S. a thorough trial. It is sold by all druggists. You are invited to write to the Medical Department for expert advice, as to how to treat your own case. Address Swift Specific Co., 436 Swift Laboratory, Atlanta, Ga.

**Quality in Clothing**

If ever grace, distinction, fashion, fit, wear and all-around excellence were compressed into a suit, they are in these pure, fancy worsted garments we are showing for spring—Suits that fit, that are shapely, that have tone, not one detail neglected. Not this style nor that style in particular, but every style that's popular. They will give satisfaction from the time you buy until they are worn out. We are showing men how to dress well and have money left for other things.

Remember we are standing right behind every Suit and Overcoat in our stock with our personal guarantee for fit, style and satisfaction. If you ever buy a garment here that isn't right, we'll make it right.

GEORGE H. WILSON  
Quincy, Ill.

Republican Candidate  
for  
Justice of the  
Supreme Court  
HIS RECORD SPEAKS  
FOR ITSELF

State's Attorney of Adams, a Democratic county, 1896-1900. Corporation counsel of Quincy, a Democratic City, 1907-8.

Four times elected to the Illinois General Assembly. Acknowledged leader in Constructive Legislation. A lawyer of twenty-eight years' experience. "As a man and a citizen his record is flawless."

ATTORNEY GENERAL BRUNDAGE SAYS: "I know him to be of judicial temperament, energetic, and well grounded in the law. His twenty-eight years of active practice, his varied experience and his studious character fit him for the Supreme Court. I wish him success."

CONGRESSMAN W. J. GRAHAM SAYS: "I regard him very highly as a lawyer and as a legislator. I know him to be well fitted for the position he seeks and will give him my cordial support."

FROM EDITORIAL, ROCK ISLAND UNION: "George H. Wilson possesses every qualification to make him a useful and valuable member of that important court. His knowledge of law covers the entire field of jurisprudence, gained by actual experience."

FROM EDITORIAL, QUINCY WHIG: "Mr. Wilson in his public life has been broad, comprehensive. Illinois must soon revise her state constitution. The interpretation, to make it a working theory, calls for none of Mr. Wilson's ability, experience and training on the Supreme bench."

MOLINE DISPATCH: "He is a lawyer of ability, integrity and experience."

## CHAPIN MAN HAS HAD FINE MILITARY CAREER

Oliver DeSollar, who returned from overseas service in December, is a guest at the home of his brother, Albert DeSollar, in Chapin. The young man, who is still in the army service, enlisted in Chicago soon after the declaration of war. He received his training at Paris Island and Quantico, sailing for France in September, 1917. As a member of the 6th regiment Marines, second division, he was in active service on the Verdun front, and on April 13, 1918, he was gassed. After six weeks in a hospital he returned to the front line trenches and was in the Chateau-Thierry trenches for a month. The young soldier suffered a second gassing at Soissons and again spent a period in a hospital. As a result of this injury he was totally blind for a period of seventeen days. That Mr. DeSollar is a sharpshooter of skill is shown by the fact that he won a medal in this department. The regiment to which he belonged has a fine record for service, having been cited seven times by the French government for distinguished service.

## OBITUARY.

Louise Jane Scott was born near Beardstown, Ill., July 5, 1837 (and passed away at 12:05 a. m., Friday, March 21, 1919, aged 81 years, 8 months and 16 days. She grew to womanhood in Cass county and on May 22, 1859, she was married to Jeremiah Bowen. They were the parents of four children, three of whom preceded their mother in death, two dying in infancy and one at the age of eighteen years. Mrs. A. M. Sinclair, living four miles north of Alexander, is the only living child. Mr. Bowen passed away twenty four years ago, and since that time his widow had made her home with her daughter, Mrs. Sinclair.

For more than seven years past Mrs. Bowen had been in failing health but she bore her afflictions in an uncomplaining manner, by her quiet gentle manner she had endeared herself to many and her going will leave a void in the home and community which cannot be filled.

The funeral services were held at the Sinclair home Saturday morning at 11 o'clock, in charge of Rev. C. E. French, pastor of the Christian church at Virginia. Interment was in the Carr cemetery in Cass county.

## PHYSICAL TRAINING COURSE FOR WOMEN

Urbana, Ill., Feb. 19.—The university of Illinois senate has decided that women at the university hereafter must take two years course in physical training instead of one.

Questions sent to twenty-five leading colleges and universities disclosed that Minnesota and Illinois were the only universities not requiring a two years course. Lack of outdoor sports here was given as one of the reasons for the change.

## CANNOT MAKE SHIPMENT TO CENTRAL POWERS

Christiania, Feb. 27.—Norway has 2,000,000 barrels of herring for export to the Central Powers or other hungry countries, but England has thus far refused to allow them to be shipped, according to a statement made in Parliament today by Stuevold Hansen, Commercial Minister.

England, the minister declared, had some 300,000 barrels of herring, bought in 1916 to prevent their shipment into the Central Empires, and they had since been stored in Christiania. The fish were no longer fit for food, the minister said, and could only be used for fertilizer.

## LITERBERRY

Mr. and Mrs. J. S. Hitchens served a nice dinner on Sunday to friends and relatives. This was a chicken dinner with all the trimmings and was equal to any of the Literberry dinners. Those present were Mrs. Ellen Neil and son Nathan and wife, Mr. and Mrs. Ed Rexroat and two daughters, Catherine and Hilda and baby son Alden Neil Rexroat, and Mrs. Hannah Rexroat.

Mrs. C. E. Keltner and little son were visitors at Sinclair last week with Mr. and Mrs. Keltner, Sr. The Misses Louise Henderson and Edith Yancy of Sinclair and Helen Young were calling on friends here Sunday. Miss Helen has received a souvenir handkerchief from her uncle in France. It is of pink, silk edged with dainty hemstitching and lace. There is a square in one corner, with corners of white flowers and vine like leaves, while the number of the year, 1919, is done in red, white and blue, representing tiny flags, and this is in the center of the square. It is a dainty little present and Helen is very proud of it, both for its beauty and for the sake of the one who remembered her by sending it from so far. Miss Yancy also received a handkerchief and a pillow cover, both very handsome.

Messrs. Jesse Litter and Joseph Bernard are both very busy tearing down old parts of the porch and fences and Jesse builds in the new. The yard has also been gone over and now they are paving and will be putting on the sidewalk in a short time. This is a nice property and right on Broadway too, and it will be known as "The house of Seven Gables," but will be called "Seven Gables." It is now the property of Mr. and Mrs. S. H. Chalmers.

Persons were on roll at Baptist Sunday school Sunday morning. We noticed some good looking people from Arcadia in class. Rev. Smith filled his appointment Sunday morning and evening, preaching in the morning from the words, "For Christ is all in all," and closing with the admonition, "Make no compromise with sin."

Mr. and Mrs. John Daniels and Harold Lee took dinner at "Chestnut Hill" with their brother Warren and family.

Mrs. Frank Hopkins came out to Literberry Saturday and transacted business. Hilley Brainer of "Heulah Land Farm" in the Grace Chapel neighborhood was doing business in our town Friday.

Mr. Nicholas of Arcadia has been helping improve Literberry by building a new machine barn, just north of the depot.

Mrs. Jackson Henderson has a big bay window filled with beautiful flowers. There are several sorts of geraniums with some pretty vines and a number of lovely ivy leafed ferns. All lovers of flowers pause as they pass along the Peoria boulevard and admire the flower window at Cozy Cottage. They, Mr. and Mrs. Henderson, are delighted by receiving word from their son, Charles, of Los Angeles, that he and his wife will have a vacation in April and will come to Literberry to visit their parents.

Our barber, Mr. Daniels, is improving his home by building a brand new coal house.

### FUNERAL HELD FOR SAMUEL PARROTT

Services at Yatesville Church Conducted by Rev. L. P. Harris of DuQuoin.

Funeral services for the late Samuel Parrott were held Monday afternoon from the Baptist church in Yatesville conducted by the Rev. L. P. Harris of DuQuoin, Ill. Appropriate songs were sung by the church choir. The many and beautiful flowers were tenderly cared for by Mrs. Edgar Moore, Mrs. Ray Shortridge, Mrs. Edward Farmer and Mrs. Freitag. Burial was in Yatesville cemetery the bearers being Moses Flinn, Edward Farmer, Jeff Stockton, James Lewis, Henry Yancy, J. R. Keltner, Ambros Waterfield and Thomas Haning.

The wife and children wish to

express their sincere thanks to the friends and neighbors who so kindly assisted during the illness and death of their beloved husband and father.

**Obituary.**  
Samuel Parrott passed away at his home two and one half miles southwest of Prentice, Ill., after an illness of four days following a stroke of paralysis.  
Samuel, son of Dudley and Sarah Bond Parrott, was born about two miles south of Prentice, Ill., August 13, 1841 and died one and one half miles west of his birth place Saturday, March 22, 1919, at 12 o'clock noon, being at the time of his death 77 years, 7 months and 9 days of age. His entire life was spent in the community. He grew to young manhood, sheltered by affectionate home surroundings. Under such influence together with his own kind and cheerful disposition, he won and retained a large number of friends. On January 13, 1876, he was united in marriage to Miss Melvina Stiltz, daughter of Moses and Elizabeth Stiltz of Ashland. To this union were born two children, John Wesley and Gracia May, both residing at home. Besides his grief-stricken wife and children, he leaves one sister, Mrs. Amanda Carpenter of this neighborhood and three brothers: Elias of Jacksonville, Ill.; Jefferson of Polk county, Mo.; and Cyrus of West Plains, Mo. Two sisters, Elizabeth and Mary, and five brothers, William, John, Tyra, Buchanan and Steven, have preceded him in death. He also leaves

many other near relatives and a large circle of friends who will long cherish his memory as one of the links in the golden chain of friendship. He leaves a home where perfect love and confidence prevails. Never were parents and children more devoted to each other. Those beautiful home ties are broken, but that love born of Heaven will live beyond the grave. He, with his family often attended services at the Baptist church at Yatesville, taking an active interest in the welfare of the cause. A devoted husband, a kind and loving father has gone to his reward. Words cannot express too high an eulogy on one so universally esteemed, so unassuming and faithful in all relations of life. He will be greatly missed in his own and surrounding communities, but our loss is his eternal gain. The sincere sympathy of their many friends go to the bereaved family in this, their darkest hour.

**In Memory.**  
The Angel of Death has entered the door.  
If a home once bright and fair;  
And bade the soul of a dear one to soar.  
To its home just "Over there."

Sometimes it seems so hard to say  
Thy will, not hours, be done,  
Thy we each are traveling day  
by day  
Toward the sinking sun.

A happier home, no one could find,  
Than the one now bowed in grief.  
Thy every cloud be silver lined,  
For thru Death, God sends relief.

He has left his humble earthly home  
And is free from toil and care.  
This dreary earth no more to roam  
For 'tis "Home Sweet Home" up there.

How sweet was that father and husband love;  
Sweeter still since he's gone to rest.  
May that same love reflect from Heaven above  
To comfort the dear ones he left.

Let us say to those so faithful and true,  
He has gone where there be no sin;  
He cannot journey back to you  
Tho you can go to him.

It is our wish to thank the many good friends, who, with their kind and loving sympathy assisted us during our recent bereavement.

Mrs. Josephine Hughes and Family,  
Mr. and Mrs. J. B. Clark.

### FORMER FRANKLIN RESIDENT DEAD

Mrs. John R. Jones Passed Away at Her Home in Centralia, Mo.—Husband Also Dangerously Ill.

Franklin, March 24.—Relatives here received word tonight of the death at Centralia, Mo., of Mrs. John R. Jones, a former resident of Franklin.

It was the first intimation received of her illness and the message stated that her husband also was dangerously ill.

Deceased was formerly Miss Alberta Reynolds and was born and grew to womanhood here where she was united in marriage to John R. Jones. A number of years ago the family removed to Centralia, Mo. She was about 40 years of age at the time of death.

Besides her husband she leaves three children and two brothers, George Reynolds of Centralia, Mo., and Lee Reynolds of Loami. The latter leaves today for Centralia to accompany the remains here for burial, arriving Thursday. There also are several half brothers, one of them Lloyd Reynolds residing in Jacksonville.

**Don't forget W. E. McCurley's sale (one mile east of Murrayville), Wednesday, March 26.**

### LEE P. ALICOTT IN ST. LOUIS.

For some time Lee P. Alicott has not been feeling well but had taken no steps toward treatment postponing it till the return of his son William. Yesterday morning however, Mr. Alicott deemed it wise to close his store and go to St. Louis to consult a specialist regarding his case. The family had a letter from William who hopes to be at home the latter part of the present week.

### For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

### RECRUITS FOR NAVY DESIRED

Now that the War is nearing an end, we have got to get together and build up a larger and stronger navy than that existing prior to our entrance into the great conflict.

The young men who enlisted during the war to serve thru the national emergency have to be discharged and it is necessary to recruit other young men to take their place. They will be needed to help in the reconstruction work making the world a safer place to live in.

Every young man ought to feel that at some time during his life he should be in his country's service. The period of enlistment, four years, is not long, when one thinks of the education and the experience gained. The navy provides competent instructors to teach the new recruits and those who apply themselves to the teaching cannot help but succeed in their undertaking.

The following are a few of the branches open for enlistment to men between the ages of 17 and 45, Apprentice Machinists, Apprentice Seaman, Yeoman, Musicians, Electricians, Bakers, Cooks, Firemen, Boilermakers, Blacksmiths, Enginemen, Mess Attendants, this branch for colored men only. The pay to start ranges from \$22.60 to \$77.60 per month. Free medical attendance, room, board and clothing allowance is given to all. Upon enlistment a man is sent to one of the Naval Training Stations to receive instructions before being sent aboard ship.

Men 17 years of age should write for consent papers which have to be signed by either of the parents or the guardian. Men 18 but who have not registered will have to write for an age certificate. Write or call at the Navy Recruiting Station, 222 1/2 South Fifth street, Springfield, Illinois.

Christijan Loverkamp of the vicinity of Arenzville was a visitor in the city yesterday.

**MANY** bed-ridden sufferers from backache and rheumatic pains owe their condition to the fact that they neglected the first warning of kidney trouble. Prompt action at the first sign of disordered kidneys will prevent much suffering. Keep the blood stream pure by keeping the kidneys healthy and the poisonous waste matter that causes pain and misery will be eliminated from the system.

### Foley Kidney Pills

have brought relief to thousands of suffering men and women who were afflicted with backache, rheumatic pains, stiff or swollen joints, sore muscles, dizziness, puffiness under eyes, floating specks, biliousness, bladder weakness, loss of appetite or other symptoms of kidney trouble.

Mrs. Sam C. Small, Clayton, N. M., writes: "In January I was taken bad with my kidneys and bladder. I had been in bed two months, but kept getting worse. Then I got to hear something had to be done. We noticed an advertisement in the Clayton News for Foley Kidney Pills and we sent for some. They have done me more good than all the medicine I have taken."

### GIRLS! USE LEMONS! MAKE A BLEACHING BEAUTIFYING CREAM

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier. About the cost one must pay for a small jar of the ordinary collars. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothen and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It naturally should help to soften, freshen, bleach and bring out the roses and beauty of any skin. It is simply marvelous to smoothen rough, red hands.

### Only One Corn Peeler, "Gets-It"

Stop Corn Pains; See Corn Peel Off

It is just when a corn hurts the most that you want to feel sure that you are getting rid of it. Why take the chance of keeping the corn and having it pain grow worse? You'll use "Get-It!"

The Only Peel-It-Off Way is "Get-It!"

It's anyhow, sooner or later; mis- as well use it sooner. Then you are absolutely sure that the corn will loosen from your toe so that you can peel the whole thing off painlessly with your fingers, in one complete piece—just like peeling a banana. It takes a second or two to apply "Get-It!" There's no fuss or putting. Corn-peeling will be a fact that'll keep you sweet while the "Get-It!" does the rest. Nothing new for corns has been discovered since "Get-It!" was born. Follow the judgment of the millions; "Get-It!" and be sure to be corn and pain free! You'll say it's magic. "Get-It!" the guaranteed, money back corn-remover, the only way, costs but a trifle at any drug store. Sold by E. Lawrence & Co., Chicago, 200 N. La Salle street and recommended as the world's best corn remedy by Armstrong's Drug Stores and Luby-Davis Drug Co.

## TELLS OF BRITAIN AND FRANCE IN WORLD WAR

R. G. Gammon Tells Forum Audience of Impressions Gained by Trip Overseas—Believes English Speaking Races Will Manage the World.

A large and highly complimentary audience gathered at Congregational church Sunday evening to hear one of the best addresses yet in the forum series, given by R. G. Gammon of Chicago, on "Britain and France in the War." The lecture was delivered in a clear, distinct voice, and abounded in wit, pathos and eloquence. A short outline is offered:

Greece Britain is a stranger to us and she is hard to get acquainted with, especially on short notice. If six Englishmen travel in one of the railway cars compartments a day they will hardly speak to each other all day and leave strangers at night. Let six Americans be thrown together and soon each will know what the other's neckties cost; how many children each has and the whole family history.

What you get from a Britisher you dig for and to seek a better understanding our government sent over a few men, editors and others to secure better acquaintance and relations and tonight I shall not offer opinions but state facts.

We went over in a large ship, one of many. In the flotilla there were some 60,000 soldiers and the trip was anything but calm and care free. The captain ate and slept on the bridge and all were watchful. We could hardly sing "Rocked in the Cradle of the Deep" for some were so anxious they slept a number of nights in their clothes though I undressed every night.

**Great Sacrifice By British**  
We reached London in due time and then I began somewhat to realize the great sacrifices being made by the people and their troubles and dangers. Air raids killed many and did immense damage. A bridal party approaching a church was hit by a bomb and blown to atoms.

Old men, women and boys were doing the work, blacking shoes even, running street cars and all manner of work, making munitions and the like. They were closely rationed in the matter of food. No meat worth mentioning; no butter; bread scarce. We could hardly get enough to eat and anything like luxury was unknown. There was no coal for warming stoves and often we had to go to bed to keep warm.

**Example of Patriotism**  
A great man was urged to take charge of the shipbuilding work but hesitated. He had two sons, both had gone to the war and one was killed. The man said he would accept the post if they would bring back his other son to help him. They did so and both went to work, the son went to another shipyard in another part of the country. He had been there but a short time when he wrote back to his father that he was not doing his whole duty by his country and asked to be relieved that he might rejoin the army. He was relieved, went back and shortly was killed.

**Astor Equips Hospital**  
We hear much about William Waldorf Astor renouncing his native land and becoming a subject of Great Britain. His wife still insists she is true to her native land. Forty miles out from London they have a beautiful estate and near their mansion they put up a hospital with 1000 beds and Mrs. Astor sees to the wants of the boys herself.

They have plenty of American boys there, too, and all are treated well.

We were invited to dinner there once and I sat next to Mrs. Astor.

On the table were some delicious grapes and fine apples and remarked inwardly that I would have both. At the table were Admiral Sims and other great men. Her little twelve year old son passed the grapes to Admiral Sims and the apples to another and both helped themselves, when Mrs. Astor said sternly: "Gentlemen, put that fruit right back. You know it is only here for ornaments."

And the order was obeyed, yet the sick soldiers had it once a week. The grapes cost \$2.50 a pound and the apples almost a dollar each.

**Visited Ireland**  
We visited Dublin and went up and down the country. In the northern part the Ulsterites said they were armed and would fight to the death before they would be severed from the British empire. In the southern part they said they were armed and wanted independence. The southern part has free and easy people. They are mostly farmers and work short hours, take two hours at noon and life easy generally. In the northern part they are a manufacturing people and are regular hustlers, making one thing of Chicago or some active northern city.

**Horror at Battle Front**  
We visited the battle front after the armistice, had been signed and the scenes of horror and devastation were sickening and have been told many times. At one place we saw the graves of 200,000 British soldiers and 60,000 at another place. Whole towns have been demolished and the people were beginning to return, some with dog carts and some with carts drawn by donkeys and all were as cheerful as could be.

They all united in the statement that the American soldiers acted like gentlemen. One woman of the police force said if she ever had to remove or restrain an American soldier he always treated her politely. They all looked on America as winning the war and even the children took quickly to us.

I think the world is to be managed by English speaking people, as they are the ones best qualified in all respects.

**TO PROHIBIT USE OF WEAPONS.**

In view of the fact that the war is over, the faculty of Illinois College has decided to prohibit the use of weapons in the annual debate between Sigma Pi and Phi Alpha literary societies. Perhaps this is also an addition to the prohibition amendment.

The deaters on both sides are strangely opposing this new rule and it is even rumored that "Tobe" Smith of Sigma Pi is going to carry a razor while Taylor, an old stand-by of Phi Alpha, and the only survivor of last year's debate, has a whole machine gun concealed in his vest pocket. Capps and Lukeman may be able to assist Tobe somewhat in the manipulation of his razor but it is generally believed that Cap Underwood and Hegstrom are working on some special waterproof, high-explosive hand grenades wherewith to jar the enemies from their position. If the discussion of the "Government Ownership of Railroads" results in blows between the opposing teams it may be necessary for the audience to intermediate. Eggs won't rot in a day or two so we hereby give notice to the public to begin fermenting it's surplus hen-berreries because the engagement will occur next Friday evening in the college chapel and every one is urged to come and watch the fray.

Hospitalier Com-mandery No. 31 will hold a special convalesce this evening at 7:30 o'clock. There will be work. Visiting Knights welcome.

## A NOTED COLORED VISITOR IN CITY

Lieut. H. J. Pinkett of Omaha Visits Jacksonville Few Days

Sunday evening a packed house at the 2nd Baptist church heard Lieut. J. H. Pinkett of Omaha tell of some of his experiences in the great world's war and yesterday morning a Journal reporter had the pleasure of an interview with the visitor. Lieut. Pinkett comes of illustrious ancestors. His great grandfather was the illustrious Charles Pinckney of South Carolina. His mother's father was a brother of Gov. Kemper of Virginia and his father is a veteran of the civil war. Lieut. Pinkett is a modest man, not at all filled with bluster or brag and much that was obtained from him was in answer to questions asked.

He has been an attorney in Omaha for twelve years and has a license to practice before the supreme court of the United States. His father was a slave before the war and was able to do nothing for his children and the visitor said he began life on his own account at an early age and without help from any one secured his academic and legal education in some of the best seats of learning in the land.

He and two brothers also climbed up the ladder and helped other members of the family and are looking after the parents in the old age of the latter. His wife is a daughter of Mrs. Nannie Blue whose husband passed away recently. Lieut. Pinkett is a member of a law firm, the others being white men and he holds a commanding position in the metropolis of Nebraska. He was anxious that the colored race should show their true patriotism and so he volunteered June 12, 1917 and was sent to an officers' training camp and was made battalion adjutant 366th Infantry 183rd brigade and saw plenty of service on the other side.

His command was in the Vesegs sector, the Argonne woods, the Meuse and were before Metz when the armistice was signed. Like many others he says the conduct of the colored troops was fine though he feels the colored commissioned officers hardly had a fair show as there seemed to be a desire to keep them down to give their white comrades a better show.

**Admires Pershing.**

He says the U. S. troops of all classes did their best and were gallant fighters. He has a great admiration for Gen. Pershing, but says the treatment of Gen. Wood was shameful as that man was really the best organizer the government had but, like Roosevelt, the administration was afraid of him and didn't dare let him do what he could in the best way. He also agrees with the governor of Kansas in the criticism of the management in the Argonne forest. He says there was great incompetency in the general outfitting and management of the troops. Our men had largely to use guns supplied by the British and the airplanes were nearly all foreign make. The heavy artillery was pushed up ahead of the light and he saw large number of American troops killed by the guns of their own side. He himself protested with the officer on the subject and with his own hands he helped bury some of the victims. In this he agrees with what has been said by several others.

When the armistice was signed the French people erected a triumphal arch and the soldiers to march under it were the Singalese, Moroccans and Africans. These were the shock troops and when an especially hard and dangerous undertaking was on hand these troops were some of the first to be thrown forward. Gen. Pershing personally commended the troops with which the lieutenant served and they deserved it. Regarding migration of colored people to the north he expressed himself much in favor. It will tend to lessen the population of the southern states and so reduce the number of their electoral vote and congressmen. It is all important that the emigrants seek the country as far as possible instead of the cities. In Cherokee county, Nebraska, they have 100,000 acres of land. In Virginia they own nearly a fifth of the farming land. Give them a chance and they will rise. He says his father remarked that in the south they required the colored man to register and bear arms and now that he returns

from his duties as a soldier with they register him and let him vote?

**WILL AID IN PROVIDING WORK**

State Senate Adopts Resolution Urging Cities and Towns to Rush Public Improvements.

At the city council meeting yesterday morning the following resolution adopted by the state senate was read by W. F. Widmayer acting clerk:

Whereas, the cessation of hostilities in the world war has come upon us sooner than anticipated, and in advance of plans or preparation for readjustment from war to peace; and

Whereas, The soldiers and sailors from the state of Illinois are daily returning in great numbers, and the return flow of soldiers from overseas has as yet scarcely begun; and

Whereas, There appears to be great difficulty in placing our soldiers and sailors in suitable employment; and

Whereas, The re-absorbing powers of peace industries are at present insufficient to take care of discharged war workers and soldiers and sailors; and

Whereas, Ample provision should be made for the employment of our soldiers and sailors, in order that they shall not be compelled to accept public charity; and

Whereas, The working people generally of this country as American citizens, are entitled to living wages and good living conditions, commensurate with the vast wealth and enormous resources of this, the richest country in the world; and

Whereas, The state of Illinois is ready and anxious to provide suitable employment for all its citizens; and

Whereas, Labor and capital are united in urging that steps shall be taken to provide employment at once to tide over the dangerous transition from war to peace; and

Whereas, Many public improvements throughout the state of Illinois have been postponed on account of the war; now, therefore, be it

Resolved, By the senate of the state of Illinois, the house of representatives concurring therein, That the legislature will, upon request, render all necessary assistance and co-operation with the counties, cities, villages, towns, municipalities, park districts, drainage districts, boards of education, sanitary districts and all other public bodies in the state of Illinois, be, and they are hereby urged to take immediate steps to start work at once on public improvements coming properly within their sphere and under their supervision, in order to give employment to the unemployed; and, be it further

Resolved, That a copy of this resolution shall be forwarded by the secretary of state to the proper public bodies in the state of Illinois.

Adopted by the senate, Feb. 12, 1919.

John G. Oglesby, President of the Senate.

## WILL ASK FOR BIDS ON PROPOSED DAM

Council Acts to Push Along Water Project—Sprinkling Needed in Business District.

The city council held a regular session Monday morning. The principal business of public interest transacted was the order made for the city clerk to advertise for bids for the construction of the dam and filtration plant. These bids are to be received April 11. It is understood that a number of contractors will be notified by mail and that advertisements will be used in both local and trade papers so that there may be as large a field of contractors as possible. Owing to the absence of R. L. Pyatt, city clerk, who is ill Commissioner W. F. Widmayer was named acting clerk with full powers of the office.

**College Avenue Paving.**  
An ordinance for the College avenue pavement was given a second reading and adopted. The ordinance providing for the vacation of West Court street in accordance with the wishes of the board of education was given a second reading and adopted.

Commissioner Martin said a member of the board of education had filed with him a complaint because the waste water from the Howe laundry runs down the alley adjoining the first ward school building. This matter was referred to Commissioners White and Martin for action. It was the statement of Mr. White that the sewer is private property and that the city should not be required to open it up. It seems that several times before the sewer which should carry off this waste water has become stopped up with the lint from clothing and the city has opened it. Mr. Howe maintained that the sewer being out in the alley, is not his private property.

An ordinance was read providing for the construction of a switch crossing on West Railroad street near Case avenue between Church street and West street, for the use of the Eli Bridge Co. Ordinances were given a first reading for the laying of sidewalks on the following streets: North East, Franklin, Walnut, Jordan, Freedman, Reid, Prospect, Edgmon, North Fayette, Mound avenue, West Independence avenue.

**Street Sprinkling Talk.**  
Commissioner White said there was a great deal of complaint from business men because of the dusty streets in the business district. They complained, and it is easy to verify the fact, that a great deal of damage is being done to stocks because of the dust. The commissioner said the city has no team to operate on the sprinkler or flusher that the city owns, but believes some plan should be made for using the flusher. Mayor Rodgers and Commissioner Vasconcellos said the city was not in any position to take on any expense for this work, and mention was made of the arrangement of last season.

At that time the city furnished the flusher and it was used by Mr. Barbre, the merchants paying for the service. The flusher was used at night and Mr. Barbre kept account of the number of loads of water taken from the hydrants and payment was made accordingly. A statement was made that if sprinkling or flushing was done in the business district, without expense to the business men, that there would be, as there had been in the past, frequent requests for the same kind of service in the residence district, and it was plainly not possible to furnish this service in the city's present financial condition.

An indicated above, the motion was made that the city clerk advertise for bids for the construction of the proposed dam and filtration plant. These bids are to be received April 11 in accordance with the advertisement which appears in another column.

Adopted by the senate, Feb. 12, 1919.

John G. Oglesby, President of the Senate.
